

Fan Suen

User Expreience Designer / Design Mentor

About Me

Hi, I'm Fan Suen and an experienced Designer in Shanghai, I've been learning and engaging in design for years, my passion is making products with great User Experience. I have tackled difficult design challenges, mentored teams and shipped products with great UX.

I achieve results by recognizing the underlying patterns in a design that can make or break a design. I understand what can be dropped, what needs to be retained, and what needs to be developed. Finally, I know how to package design requirements for developers to make great products.

Experienced in storytelling and create user scenario, storyboard and low-fi motion graphic video to communicate with users and stakeholders.

Platforms I've worked on: desktop, web, tablet, mobile.

Experience

Design Leader @ IngageApp (2018.05 - Present)

Design and user experience leader, adept at managing UX teams and define design guidelines, delivering great solutions to complex design problems. Astute at identifying underlying patterns that simplify a design and make implementation easier. Solid at collaborating with PM and engineers to ensure implementation.
